COMPANY OVERVIEW

October 2026

WHO WE ARE

Private markets. A clearly defined approach.

Alpha Capital One LLC invests in, acquires and sells assets through private transactions, with relevant diligence and clearly defined commercial terms.

Our focus is on qualified principals and professional counterparties. Each engagement begins with the parties, their authority and a clear understanding of the proposed transaction.

Digital assets

Acquisition, sale and custody.

Precious metals

Physical gold and silver.

Energy & petroleum

Crude, gas and refined products.

Fine art & luxury

Art, collectibles and luxury assets.

WHAT WE DO

Distinct capabilities. Shared discipline.

Direct investment, acquisition and sale across private markets and high-value assets.

Digital assets

Cryptocurrency acquisition, sale, transaction structuring and custody arrangements.

Precious metals

Private gold and silver transactions, provenance review and custody coordination.

Energy & petroleum

Purchases and sales of crude oil, gas, refined products and related derivatives.

Fine art & luxury

Acquisitions and sales focused on authenticity, provenance and discreet execution.

Private equity

Sourcing, investing in and divesting private companies against defined investment objectives.

Multi-asset investments

Investment opportunities spanning artificial intelligence, digital assets and physical assets.

Institutional trading

Large-scale equities, commodities and alternative-asset transaction execution.

Non-QM portfolios

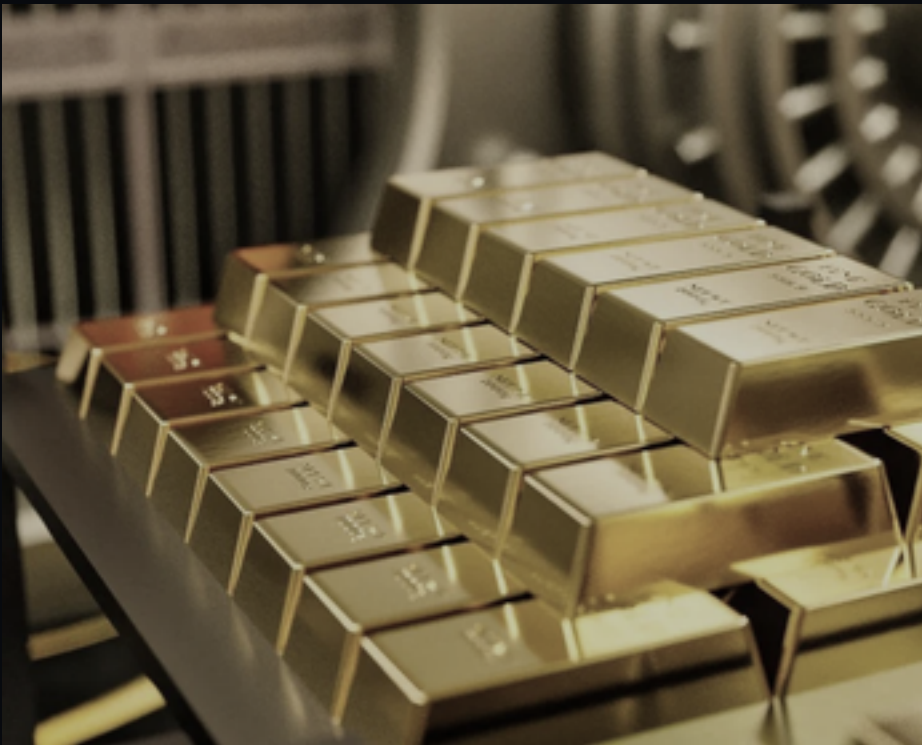

Business-to-business acquisition and review of performing residential loan portfolios.

Private real estate

Selected multifamily and hospitality opportunities with qualified counterparties.

GOLD & SILVER

Physical assets. Carefully structured transactions.

Acquisition & sale

Physical gold and silver, including bullion and doré. Product specifications, quantity, purity and commercial objectives define the transaction.

Verification & custody

Review provenance, refiner documentation, chain of custody, title and storage arrangements. Insurance and custody responsibilities are established for the engagement.

Delivery & settlement

Agree inspection or assay requirements, payment terms and delivery. Vault-to-vault movement or professional escrow arrangements may be considered where appropriate.

HOW WE WORK

Clarity at every stage.

A structured process aligns the parties, the evidence and the terms before execution.

01

Introduction

Establish the parties, authority, asset and commercial objective.

02

Diligence

Review counterparties, relevant records and transaction-specific risks.

03

Documentation

Align terms, responsibilities, disclosures and definitive agreements.

04

Settlement

Coordinate agreed execution, transfer and post-transaction records.
